

Don't let ransomware knock you out

Be ready to come out swinging with the NetApp Ransomware Protection and Recovery Service

Every 11 seconds¹
there's another ransomware attack

54%

of businesses say that ransomware attacks are too advanced for their IT team to handle alone.²

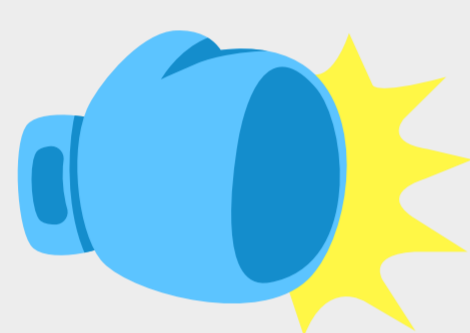

50%

of IT professionals believe that their organization is unprepared to defend against a ransomware attack.³

8% of victims recover all their data after a ransomware attack.²
The average victim loses 35% of their data.⁴

It's not a matter of if—but when your business will be a target. Is your organization prepared to take on cybercriminals?

Stay a step ahead of ransomware risks with a heavy-hitting strategy to detect, protect, and recover quickly from an attack.

Beat them to the punch: Detect and remediate risks and security gaps in advance.

Determines data protection needs before a ransomware attack occurs. An assessment of your current environment identifies business continuity risks, locates unprotected storage volumes, and provides best practices recommendations for closing security gaps.

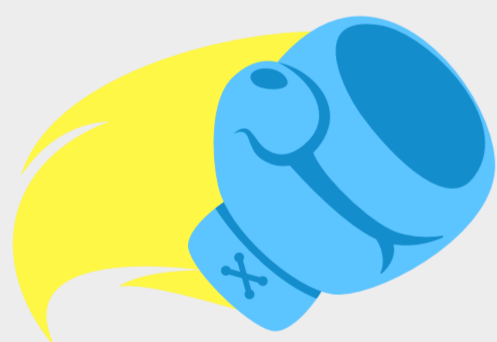

Put up your guard: Protect your data storage and improve ransomware readiness with the right security tools.

Keeps would-be attackers on the ropes through a subscription-based approach. Implements and configures industry-leading NetApp® anti-ransomware tools, watches over your environment with 24/7/365 monitoring, responds to alerts, and administers software so you have the confidence that your data is secure.

Land a knock-out blow: Recover faster when a ransomware attack happens.

Delivers a one-two punch for maintaining business continuity and accelerating data recovery. Confirms a strong recovery plan is in place. Provides semiannual testing and validation to ensure backups can be restored quickly, without compromising data integrity. Uses NetApp Snapshot™ copies for data recovery to minimize costs, to stop any ransomware spread, and to get you back on your feet faster.

Toughen up your ransomware readiness by putting NetApp Professional Services in your corner.
